V200 Body Camera

Let your body camera
be your bodyguard

MOTOROLA SOLUTIONS

The V200 can change the trajectory of an incident before it escalates.

There is a growing global trend towards better prioritizing the safety and security of frontline staff worldwide. Concerns ranging from theft to workplace violence are rising to be more complex and require a robust solution to prevent, detect and respond. While equipping employees with body cameras is an obvious option, an even more effective solution is a body camera that helps change the trajectory of an incident before it escalates.

The V200 body camera is designed with recording and escalation button(s) to activate GoLive Audio, a safety feature that ensures employees have immediate access to a supervisor or security team at a moment's notice while recording every detail from start to finish.

Intuitively simple and sophisticated.

Remarkably straightforward and compact, the V200 features dedicated buttons and a top display for quickly viewing status of battery life, WiFi and supervisor or security agent connectivity.

Stay supported. Stay connected.

Improve real-time response by viewing livestream video via WiFi from your employee's camera for a first hand perspective. Activate GoLive audio when in need of assistance.

Shift with ease. From start to finish.

Streamline body camera allocation, charging and video offloading with an efficient and simple process.

Step into work with comfort and style.

Choose from a range of mounting accessories for a secure and comfortable fit throughout the day. And personalize the camera with a customizable label to meet your company's brand guidelines.

VIDEO	
Resolution	1280 x 720p
Frame Rate	25 frames per second
Lens Angle	122° horizontal
Storage	64GB
Format	H.264
Recording Status Notification	Vibration Visual (LEDs and display) Audible
Recording Reminder Notification	Audible
AUDIO	
Microphones	1
Format	AAC, G.711 Khz uLaw
CONNECTIVITY	
Wi-Fi Specification	802.11 b/g/n (2.4GHz)
Wi-Fi Security	WPA2-PSK
Bluetooth®	BT 5.2 + EDR, BLE
BATTERY	
Recording Runtime	9 hours of continuous recording
Battery life in standby[1]	5 months (without pre-record)
Recharge Time	<5 hours
Charging Port	USB-C

SECURITY	
Video Download	Encrypted keys specific to backend software instance TLS connectivity to backend software
Live Connectivity	TLS connectivity to backend software
USB Connectivity	The V200 cannot be accessed as a USB storage device
Audit Trail	Usage, operations and recording details are all audit-logged and indexed
Footage	AES256 encrypted at rest and in transit
HARDWARE	
Weight	121.6 grams
Drop Test	MIL-STD-810H
Dimensions	82mm x 53.7mm x 28.2mm
Environmental Rating	IP54
Operating Temperature	Operating: -20°C to +40°C Charging: 0°C to +25°C
Connectors	Bottom USB-C port for docking and charging
Status Display	Top panel LCD backlit display, visible in bright sunlight
Status Indicators	Front facing LEDs Audible and vibration alerts
Configurable Buttons	2 x top panel push buttons 3 x side panel push buttons 1 x front panel large push button
Mounting Options	Low profile swivel clip and lanyard

1 Battery life impacted by camera configuration. Average battery life at 10/90 duty cycle. Actual battery runtime observed may vary.
